SUB: Plug and Play LED Video screens

- **These standalone Plug and play systems require only simple software to be installed on PC and you can connect Video screen directly to PC or load data via Pen Drive.**
- **Options to send data wireless from PC / Android mobile or GPRS to screen are also available.**
- **All the models come in a single cabinet hence no hassle to interconnect multiple boxes.**
- **The Cabinets are MS powder coated and have a long life , the outdoor ones are 100% rain proof and can be installed outdoors without hesitation.**
- **The Outdoor models are very bright and are fully visible in daylight.**
- **You can run multiple videos, pictures or text as advertisements, Sale offers, Promotions etc.**
- **We provide online software installation and training to run the boards.**
- **You can choose the screen size depending on the area available and the viewing distance and resolution can be decided depending on the budget**
